PROJECTS

DevMountain Tracker - DevMountain

April, 2017

AngularJS, HTML/CSS, NodeJS, Express, SQL, JQuery UI, Bootstrap, Moment.js, Sockets.io, D3, DevMountain Passport.

- Lead front end developer. Responsibilities included cloning the designs provided for the app.
- Pair programmed a majority of the main functionality of the app.

OUR Rescue Ionic App - DevMountain

March, 2017

Ionic, NodeJS, Express, SQL, HTML/CSS, Stripe, Animate.css, jQuery, Sass, Gulp

- Learned Ionic Framework on my own and created a fully functioning Ionic app in two weeks.
- Integrated a fully functional shopping cart using tokens, local storage, and stripe.

OUR Rescue Redesign - DevMountain - <https://ourrescue.herokuapp.com>

March, 2017

AngularJS, HTML/CSS, Animate.css, jQuery, Waypoints.js Sass, Gulp

- Front-end redesign of the Operation Underground Railroad website
- Along with the OUR Rescue Ionic App, won 'Best Overall' in my cohort at DevMountain.

EXPERIENCE

Mentor - DevMountain

April, 2017 - Present

- Mentor students going through the DevMountain full-immersive Web Dev Program.
- Teach key principals of HTML/CSS, JavaScript, JQuery, AngularJS, SQL, Express, and Node.

Licensing Administrator - Vivint, LLC

April, 2016 - Jan, 2017

- Managed and met the high-stress deadlines for the licensing process of Vivint employees.
- Crucial attention to detail was required to adhere to the state licensing requirements.
